Subject: Letter to Leasing Companies

How dare you. Not only are you continuing to exploit for profit corporations but Preferred Capitol continues to exploit and intimidate the "not for profits" who rely on every cent of donated dollars to help uplift and empower those less fortunate.

The original "hussle" sales approach used by Norvergence was bad enough but to continue to benefit from the scam is immoral.

Each month when we send in our payment for equipment that is unusable we deminish our capability of providing simple decent homes for God's people in need. Each monthly payment that is sent in would purchase a framing package from our partner suppliers. I wish the gurus at Preferred Capitol had the guts to explain to a family who has to wait extra months to begin construction on their home "how legal and ethical" they are in their business practices.

I can't help but chuckle as I continue to shred the unsolicited credit card officers I receive from Preferred Capitol. Do business with a Judas, I think not.

My God enlighten Preferred Capitol and all the other leasing companies!

Brad Nimmo, President/CEO

Habitat for Humanity of Marion County, Inc. (Florida)
